

# BRUCELLA ABORTUS VACCINE STRAIN RB-51

Live Culture

Cat. #62512 10ml 5 Doses  
Cat. #62513 50ml 25 Doses

## FOR VETERINARY USE ONLY

**INDICATIONS:** For use in healthy female cattle 4 to 12 months of age as an aid in the prevention of infection and abortion caused by *Brucella abortus*.

For use by or under the supervision of a veterinarian. Distribution in the United States shall be limited to authorized recipients designated by proper state officials under such additional conditions as these authorities may require.

**DIRECTIONS:** Store at 2° to 7° C. Rehydrate with accompanying vial of sterile diluent. Diluent is a buffered solution specifically prepared for use with this vaccine. Shake well after rehydration. Use entire contents when first opened. Do not vaccinate within 3 weeks before slaughter.

Do not administer to pregnant cows.

**PRECAUTIONS:** Anaphylactoid reaction may occur following administration of products of this nature. If noted, administer adrenalin or equivalent.

In the event of accidental human exposure, consult a physician. WARNING – this organism is Rifampin and Penicillin resistant.

Burn, autoclave, or chemically disinfect container and all unused contents.

**DOSAGE AND ADMINISTRATION:** Inject 2ml subcutaneously.
